

Epson L121

DATASHEET / BROCHURE

Epson's smallest, single-function EcoTank printer delivers cost-effective and reliable colour printing.

Ideal for home offices and students looking to cut their printing costs, this compact and reliable 4-colour, cartridge-free printer features Micro Piezo printhead technology and Epson genuine ink so users can print Epson-quality at an ultra-low cost.

Ultra-low-cost printing

The L121 offers affordable printing and a low cost per print. Each set of ink bottles can print up to 4,500 pages in black and 7,500 pages in colour¹, delivering an ultra-low cost per page for both black and colour printing.

Easy to use and reliable

Increase productivity and reduce downtime with hassle-free set up and reliable printing. The purpose-built ink tank is fully integrated into the printer, so you can enjoy reliable colour printing without the mess or hassle often associated with non-genuine refills and third-party ink tank systems. Epson-genuine ink bottles make it easy to refill the ink tank with their clear labelling and drip-free nozzle. The L121 has 40ml ink tanks, giving it a smaller, more compact design that easily fits into home offices or student bedrooms. This printer comes with a 12 month (or 15,000 page) warranty, providing peace of mind and help should you need it.

Epson-quality printing

The L121 utilises genuine Epson ink and Epson's Micro Piezo technology to produce consistent quality prints. An ISO print speed 9ppm in black and 4.8ppm in colour² ensures you won't be waiting around for print jobs.

INK BOTTLE YIELD DATA

Included	2,000 pages*	3,500 pages*
Replacement	4,500 pages*	7,500 pages*

* Approx. page yield based on ISO/IEC 24711/24712 or ISO/IEC 29102/29103. Actual yield will vary depending on images printed and usage conditions. For more information visit <http://www.epson.eu/pageyield>

1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 with replacement sets of ink. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
2. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit www.epson.eu/testing
